

CODIGO	DESCRIPCION
AR-MINIBOMBA	MINI BOMBA DE AGUA SUMERGIBLE
Description: Material:engineering plastic Voltage: DC3-5V Current: 100-200mA Head: 0.3-0.8 meters Flow: 1.2-1.6L / min Outside diameter of water outlet: 7.5mm Inside diameter of water outlet: 4.5mm Water inlet diameter: 5mm Driving mode: brushless dc design, magnetic driving Continuous working life of 500 hours style: Mini mute submersible pumps that can be used for computer cooling water cycles or other recirculating water. Power can be used for mobile phone charger or USB size: app 43*23 mm
