

Features:

Bipolar constant current chopper
High-speed optocoupler signal isolation input
Electrical input signal is TTL compatible
Stationary current is automatically reduced by half
Suitable for any small-and-medium automatic equipment with CNC controller, such as X-Y-Z tables, labeling machines, laser cutters, engraving machines, and pick-place devices.

Specifications:

1. Supply voltage: 9~42VDC
2. Input voltage: DC 12 ~ 48V
3. Operating temperature: -10 to 45 °C
4. Storage temperature: -40 to 70 °C
5. Max drive current: 4A
6. Chopping frequency: 20KHZ

Package includes:

1 x 4A TB6600 Stepper Motor Driver
